

# WHAT DOES THE HOME BUILDING PROCESS LOOK LIKE?

## UNDER CONTRACT

*Congratulations!*  
You have finalized your plans and we can't wait to help you design your new home.

## ONLINE ACCESS

We use an online construction project management software called **Buildertrend** to keep everything organized!

## EXTERIOR SELECTIONS

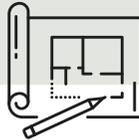

This will be an in-person meeting held at our Copley showroom to select all of your exterior finishes. Expect this meeting to be approximately 1 hour.

## REVIEW OF ROUGH-IN LAYOUTS

This is a review of the electrical and plumbing for your home. This must be finalized prior to the start of framing of your home.

## DESIGN INSPIRATION PERIOD

This is your time to gather inspiration photos for each space in your home! This is typically shared with Copley via Pinterest or PowerPoint.

## VIRTUAL DESIGN MEETINGS

We will conduct a 30 minute meeting virtually to establish your needs! This will be followed up by another 30 minute virtual review of initial kitchen and bath renderings.

## INTERIOR SELECTIONS

*The big one!*  
This is the longest meeting of all. You will make all of your interior selections at this time. This meeting is in-person and roughly 3 hours long.

## PROGRESS PHOTOS

After selections are finalized you will be presented with a design deck if you ever need to look back! Copley will upload progress photos to **Buildertrend** as the project moves along.

## NEW HOME ORIENTATION

*The final step!*  
We will conduct a New Home Orientation to review all systems and quality of your new home.
